About me

I am a fourth year student who want to acquire new skills and do interesting things. I really enjoy Open Source Software so I am an active member of Academic IT association where I learned a lot and I had the possibility to help in organizing the event about open source - Linux Session.

Experience

06.2019–10.2020 **JavaScript Fullstack Developer**

JavaScript, TypeScript, Node, React, MongoDB

I worked as a software developer in Vazco company where I developed responsive web applications.

Projects

11.2018–3.2019 **Labday Backend**

Java, Spring Boot, Hibernate, Postgres, Maven

Implemented a web server which served data about events that occurs on Labday happening and shared to mobile and web application by REST API.

11.2018–3.2019 **Labday Admin Panel**

JavaScript, React, Redux, Material-UI

Implemented a web application that allowed to manage data from Labday Backend using simple calendar.

Education

2017–present **BSc Eng.** in Computer Science
Studying in English

Wrocław University of Science and Technology

Organizations

2018 – present **Akademickie Stowarzyszenie Informatyczne**

open source enthusiast

2014 – 2017 **Bieszczadzka Akademia Robotyki**

developing a passion for embedded systems

Activities

2019 **Organizing the Linux Session event**

Open Source conference

2016 **4th place in Krakrobot competition in Kraków**

team competition
