Linux

## About me

I am a second year student who want to acquire new skills and do interesting things. I really enjoy Open Source Software so I am an active member of Academic IT association where I learned a lot and I had the possibility to help in organizing the event about open source - Linux Session.

## Projects

### 11.2018–3.2019 Labday Backend

*Java, Spring Boot, Hibernate, Postgres, Maven*

Implemented a web server which served data about events that occurs on Labday happening and shared to mobile and web application by REST API.

### 11.2018–3.2019 Labday Admin Panel

*JavaScript, React, Redux, Material-UI*

Implemented a web application that allowed to manage data from Labday Backend using simple calendar.

## Education

2017–present **BSc Eng.** in Computer Science  
Studying in English

Wrocław University of Science and Technology

## Organizations
